EDITORIAL NOTES.

The Democratic opposition to Butler in Boston will probably amount to very little. A few "swallow tails" may break from the ticket, but the act will be little more than a joke, and in supplying a fund for Butler's sarcasm will do him more good than harm. Butler is full of resources and is trying to make this canvass on the theory that he is a martyr whom the swells of Harvard, and Beacon street are trying to punish, because, at mighty sacrifices, he has tried to serve the State and especially the poor of the State. It is just possible that Butler started the opposition himself, that he might have a new fund on which to draw for sympathy. Benjamin in geology would be termed "a tough, hard formation."

Postmaster-General Gresham is doing his utmost to make the Post-office Department self-sustaining, notwithstanding the recent reduction in letter postage. In many cases the indiscriminate cutting down of the salaries of postmasters will doubtless prove real hardships, but the Department seems to be of the opinion that the offices can be run for less money, without destroying the efficiency of the service.

Foraker went down like a man. He fought consistently for temperance and tariff to the last. He is more glorious in defeat than the time-serving Hoadley is in victory.

It is said that several citizens of Nevada will be found willing to go to Congress. Both parties have aspirants.

## FOREIGN DISPATCHES.

(FROM DISPATCHES TO THE GAZETTE.)

### A Dissatisfied Horse Man.

LONDON, October 11.

Some dispute between Walton, the owner of Grofde, and trainer Day concerning her running in the Czarowitz stakes race. At first it was alleged that Grofde had been poisoned, but a veterinary surgeon examined her, and certified there was nothing wrong. The matter will probably be referred to the jockey club; meanwhile Walton has transferred his horses to trainer Sherwood.

### Would Not Compensate.

LONDON, October 11.

Missionary Shaw in an address before the Congregational Union, stated that he wanted redress for himself and the Madagascar churches, rather than compensation for whatever they might do, which could not compensate them for their losses.

### Unable to Agree.

MADRID, October 11.

The Ministry has resigned, being unable to agree upon the course to pursue; in view of the refusal of Franco to make further reparation for the treatment of Alfonso, this leaving the task to the new Ministry.

### Driven Out by Water.

LONDON, October 11.

An outburst of a land spring on the Moimouth side of the tunnel under the river Severn, caused the workmen to flee. The pumps fail to check the rise.

### Newmarket Stakes.

LONDON, October 11.

Tristan won the Newmarket champion stakes by a neck, Oasian second and Dutch Oven third. Six started.

### Amnesty Granted.

CAIRO, October 11.

All implicated in the recent rebellion are granted amnesty except those convicted of murder and outrage.

### The Street Car Conductors' Strike in Washington.

Washington proved a failure, and all the leaders were refused employment.

### The State Council at Neuchâtel.

Switzerland, have issued a decree expelling Miss Booth and all foreigners suspected of the intention of organizing a Salvation Army meeting.

### The hostile Indians have established a trading camp above the Mexican town of Casa Grande.

visiting the town and getting drunk in pairs. Juh does not show himself, saying that he fears the treachery of the Mexicans.

## EASTERN DISPATCHES.

(FROM DISPATCHES TO THE GAZETTE.)

### Time-Table Convention.

CHICAGO, October 11.

The annual Railway Time-table Convention began here this morning, and is being attended by representatives from nearly every important railway in the country. In addition to arranging the Winter time-tables, it is proposed to take definite action on the adoption by railroads throughout the country of the proposed plan for uniform time. The new plan has been termed the "hour system." It provides for standards differing from each other by exactly an hour, leaving out the eastern and western extremes of the continent. It is proposed that all railroads using Boston, New York, Philadelphia, Baltimore, Toronto, Hamilton and Washington time as standard shall be governed by the 76th meridian time (four minutes slower than New York). Roads now using Columbus, Savannah, Atlanta, Cincinnati, Louisville, Indianapolis, Chicago, Jefferson City, St. Paul or Kansas City shall be run by the central or 90th meridian time, nine minutes slower than Chicago time. Minneapolis, St. Joseph, Galveston, Houston and Omaha time west of this road to be run by Denver time. It is stated that the Eastern District standard time will be used by all roads between Boston and Montreal. P. H. Wright, General Superintendent of the L. S. and M. S., was called to the chair and W. G. Allen chosen Secretary. The delegates then presented their credentials. The Secretary announced that he had received affirmative replies from managers of 78,000 miles of track to the proposed uniform schedule. The Secretary received a communication from Commodore Shufeldt, in charge of the naval observatory at Washington, in which he congratulated the convention upon the change contemplated, and said that while he thought the proposed standard would be better from a scientific point of view, he thought the present change a long stride in the right direction. Commodore Shufeldt promised the co-operation of the naval observatory in carrying out the policy of the convention.

### Later Election Returns.

COLUMBUS, October 11.

More complete returns from Tuesday's election indicate an increase in the Democratic majority, which will probably be considerably over 12,000. The Senate will be two to one Democratic, and the House is estimated at 63 Republicans and 82 Democrats. Later returns of the Legislature indicate that the Democratic majority on joint ballot will not be more than 24. The second amendment will receive about 300,000 votes, and will probably be adopted. They expect the cities to go strongly against it. The judicial amendment was carried beyond a doubt. The first amendment will not get over 100,000 votes, and the Prohibition vote is estimated at from 5,000 to 20,000, and the Greenback at 2,000.

### CINCINNATI, October 11.

The Times-Star's footings of Hamilton county make Hoadley's majority 1,866. Official returns must be awaited to know certainly as to the Senators and Representatives.

### The California Pool.

CHICAGO, October 11.

John C. Gault having declined to accept the position of Commissioner of the new California pool, the question as to who is to be selected for this important position is being generally discussed by the railroad men interested in the California business. E. P. Vining, freight and traffic agent on the Union Pacific, is being urged by some parties for the position, but as the Central Pacific and other roads are strongly opposed to him on account of his connection with the Union Pacific, it is not probable he will get the place. The gentleman now most prominently mentioned for the place is John Crompton, late general foreign freight agent of the Vanderbilt roads in this city. Crompton is strongly recommended for the position by Commissioner Fink and other prominent railroad officials.

### A Liberal Offer.

RETAIL, Vermont, October 11.

In the trial of J. L. Haven, ex-Treasurer of the Rutland Railway Company, for an alleged over-issue of stock of that corporation, the expert accountant testified to the discovery of the over-issue. He told Haven, and Haven said it would ruin him if it got out, and asked the expert to report everything all right. Haven said he could fix it in two months, with the aid of wealthy friends, and that he would give the expert a bond for \$100,000, or any amount, if he would do as he wanted him to do.

### A Literary Success.

CHICAGO, October 10.

A Washington correspondent telegraphs that Blaine has nearly completed his history of "From Lincoln to Garfield." He will then begin upon a history of the war of 1812. No satisfactory history confined to this period

has ever been written. Blaine proposes to fill up this gap, and has already gathered a mass of material for it. A personal friend of Blaine declares that he was offered the immense sum of \$100,000 for two volumes of "From Lincoln to Garfield." He is no business man and was about to accept the offer, when a friend urged him not to do it but to insist in its place a royalty of 50 cents per volume. Blaine, however, was not sanguine of the great sale of the book. He finally agreed to take \$75,000 and a royalty of 15 cents a volume. This friend of Blaine says: "I believe the royalty will bring him in nearly as much as the first cash offer would have done. The publishers have advanced orders of 100,000 volumes of the history, and are perfectly confident that they will sell 300,000 volumes."

### Counterfeiters Arrested.

CHICAGO, October 10.

The Secret Service officials here, report the arrest at Grand Forks, Dakota, of three men supposed to be engaged in printing and circulating spurious ten dollar silver certificates. The chase made by the Secret Service men, was a prolonged one. It was learned that various parties on the line of the Northern Pacific Railroad have been victimized. The Detectives found all the paraphernalia for carrying on counterfeiting, and discovered also four copper plates for printing five and ten dollar bills on the bank of Montreal. The latter plates were five ones and are morticed in such a manner that the check numbers and bank officials signatures could be changed at any time.

### A Hotel Panic.

NEW YORK, October 11.

A fire in the kitchen of the Brevort House, on 6th Avenue and 8th street, early this morning, caused a commotion among the guests and male servants, while the female help were wild with panic, and were with difficulty restrained from leaping from the windows into the street; fortunately no one was injured, and the damage by fire was slight.

### Election of Directors.

ATLANTON, Ga., October 11.

At the annual election of Directors for the Central branch of the Union Pacific Railroad, ten thousand shares being represented, resulted as follows: Sidney Dillon, Jay Gould, J. M. Hain, E. H. Baker, F. Gardner Dexter, F. L. Ames, A. Aikens, H. McFarland, A. M. Mint, J. G. Harris, H. P. Dillon, A. L. Williams and W. T. Kelly.

### Arrested For Forgery.

ST. LOUIS, October 11.

A dispatch from San Antonio says a young Jew named Holpert has been arrested there, charged with perpetrating a forgery on the banking house of Kidder, Peabody & Co., of Boston, for \$30,000. Holpert denies the charge, and gave \$10,000 bail; two large mercantile firms going his security. The forgery is said to have been committed some time last month.

## WESTERN DISPATCHES

(FROM DISPATCHES TO THE GAZETTE.)

### Torpedo Cables.

SAN FRANCISCO, October 11.

The Coast Harbor Defense Company which made some experiments in the cable system of torpedoes at Fort Monroe in May last, has sent Lieutenant J. W. Graydon, the inventor, to this city to make estimates of the cost of providing this system of defense for this harbor. It consists of a submarine cable service, worked from shore with the aid of steam; the cost is estimated at \$600,000. The cables are to be strung in times of war only. Senator Jones and Congressman Rosecrans approve the plan.

as a cough remedy.

"While with Churchill's army, just before the battle of Vicksburg, I contracted a severe cold, which terminated in a dangerous cough. I found no relief till on our march we came to a country store, where, on asking for some remedy, I was urged to try AYER'S Cherry Pectoral."

"I did so, and was rapidly cured. Since then I have kept the PECTORAL constantly by me, for family use, and I have found it to be an invaluable remedy for throat and lung diseases."

J. W. WAITLEY."

Thousands of testimonials certify to the prompt cure of all bronchial and lung affections, by the use of AYER'S CHERRY PECTORAL. Being very palatable, the youngest children take it readily.

Reno people are generally taking the GAZETTE's advice and are selling their old cracked and burnt out stoves and are buying those nice ranges at Knowles & Balbridge's.

People of this town and vicinity have become fully convinced that nothing is saved by sending to California for their groceries, so long as A. Lindley & Co. does business here.

The liquor drummers complain that Chelovich & Co. are spoiling their wholesale trade in Reno and neighboring towns, for the retailers have learned they can buy cheaper at home.

An alarming report comes from San Francisco that a man has died of the yellow fever in Alameda county, but if you will drink George Becker's Pacific Brewery beer, you do not need fear the yellow or any other kind of a fever.

The most tender and digestible steaks, roasts, and all dimension, boiling pieces which will cook thoroughly in an hour, or the best corned beef you ever set a tooth in, can be had at the shop of J. D. Pollard, next to the GAZETTE office.

The character of the hotels of a town has more to do with a stranger's impression concerning the character of the inhabitants of a place than all other places of business, which leads this scribe to say that Reno is fortunate in having such a hotel as the Palace.

ARTIFICIAL EGGS.

The Use of Biddy as a Hatcher Gone.

Artificial eggs have recently appeared in the market at Portland, Maine, and have stood every test, except that of hatching, experiments in this line not having been yet extensive enough to warrant the conclusion that they will all prove a failure. The shell of the artificial egg is made of paper pulp, with the addition of a little plaster of Paris. The lining membrane is made of very fine tissue paper, soaked in paraffine. The white of the egg is of refined gelatine or glue reduced to the proper consistency, and the yolk of cocoon-oil, butter and cotton-seed oil, which, when mixed in certain proportions, form a globe which is covered by a harmless matter, and hangs suspended in the gelatine. The manner in which the white and yolk are got within the shell is yet a secret to the manufacturers, who will keep it until the hatching qualities of the new egg are perfected. In the meantime, these eggs are very much sought for, and rapidly crowding the old-fashioned "hen fruit" out of the market.

Murdered in His Office.

A last evening's Prescott, A. T., dispatch says: At 8:30 p. m. four or five shots were heard in quick succession in the assay office of George Ralph. Ralph was found in a dying condition; he tried to speak, but failed, and within ten minutes of the time the shots were fired he was a corpse. The deed was undoubtedly done by George C. Walker, one of the city constables, the cause being an alleged scandal with Walker's wife, who is young and very fine looking. Ralph came from San Francisco here, and was a young man of excellent habits and great ability. Walker was arrested.

The Little Water Mills. The little water mills in the canyons below the Comstock, are reported to be running to their fullest capacity, much of the ore being taken from small mines in the immediate vicinity of the mills there by saving transportation.

Weekly "Gazette." The Weekly GAZETTE issued from this office to-day, contains all the local and current news of the past week, as well as the press dispatches—terms, \$2.00 per year in advance. Sample copies gratuitously distributed.

GOVERNMENT AID ASKED.

The Miners of California Ask for Protection.

The miners of California have very justly resolved "that an industry, which has turned into the channels of commerce the sum of \$1,200,000,000 of gold, and which can furnish a still larger sum, is certainly worthy of protection by our government, which has in all ways profited so largely by it, and which has, as yet, never contributed one dollar to its aid or protection. The Mining Review says: In view of the immense sums of money which have been appropriated for fish, sea bug, North Pole and astronomical expeditions, it would seem as if the California miners were justified in asking an appropriation to relieve the injuries claimed to be done by the debris from the mines, especially as they agree to furnish an equal amount. Congress spends millions of dollars in the interest of commerce, but, as is stated, nothing for the mining industry which, since 1848, has added \$2,158,200,000 in gold and silver alone to the substantial wealth of this country, besides establishing and supporting other industries, which have advanced the development of this country more than a hundred years.

Truckee Items.

The Republican of the 10th inst. contains the following:

Liverymen and loggers are busy putting in their winter's supply of hay.

The Truckee Lumber Company are stacking up huge piles of lumber on both sides of the river.

Local freight matters are booming. Prairie schooners daily roll out for merchants in Sierra Valley and Tahoe.

The recent rains have entirely extinguished the forest fires, and the atmosphere is as clear as at any time of the year.

F. Hunt addressed a large crowd at Boca Saturday night, and afterwards organized a branch of the Workingmen's Union there with a membership of twenty.

The tourist season has virtually closed. The roads are slippery and bad, and the hotel keepers are making preparations to fold their tents and hie themselves to the valleys.

More State Boarders.

The Winnemucca Silver State of the 10th inst. says: To-day at 10 o'clock in the District Court William Stapely and Frank Gitz were sentenced to one year each in State Prison for grand larceny. The sentence of Maurice Brannock for a similar offense was postponed until this afternoon. These men were trapping across the State to California, and broke into a freight car from which they stole some overcoats and wearing apparel. They were arrested near Lovelock and held to answer. The Grand Jury indicted them for grand larceny, and they pleaded guilty to the charge, and now go to State Prison for a year each. Brannock, who is to be sentenced this afternoon is a mere boy.

A Good Business.

At the annual meeting of the stockholders of the Nevada Bank, held in San Francisco yesterday, J. C. Flood, J. G. Fair, J. W. Mackay, J. L. Flood and J. L. Blander, who between them hold all the stock, were elected Directors. The net profits for the year were \$700,000; \$563,000 was carried over as a reserve fund, making the total reserve \$5,000,000. The remaining \$250,000 was carried to the new account. The exchange business for the last year footed up \$78,000,000.

New War Minister.

A dispatch from Paris says that it is expected that General Sausser, commandant of the 19th army corps, will succeed General Thibaudin as Minister of War. This says the San Francisco Exchange, is jumping from the frying-pan into the fire, with a vengeance. Minister Thibaudin was forced to resign because he was saucy to King Alfonso, yet they appoint as his successor a man who is Sausser. Strange people, those French.

Good Name.

John Wickes, well known in Mono county, says the Bodie Free Press, who is now in New Mexico, has made a rich strike near Santa Fe. It is reported that after working ten days on a prospect he had discovered, Wickes struck a ledge of silver ore ten feet in width that assayed \$280 per ton. He was offered \$70,000 for the prospect, and accepted the same.

Mining News.

Chicago parties are said to have bought some of Mr. Lovelock's mines, near the Humboldt sink, and will run a narrow-gauge railroad out to them. They are in the IXL range, on Table mountain, and consist of copper, galena and iron.

Is Life Worth Living?

Mr. J. J. Cortis, Leadville, Colo., says that St. Jacobs Oil once saved his life. He was taken to the hospital to die. Upon using the remedy he was able to leave a well man.

Stricken With Paralysis.

J. R. Scott, a well-known Carson saloon keeper, was stricken with paralysis Tuesday evening. The entire right side of his body, from head to foot, is affected.

PERSONALS.

Paul Jones and Joe Dyson are in from Summit.

Bob Morrow, the stock broker, went west to-day.

Louis Dean has returned from Humboldt county.

S. H. Carpenter left Reno for New York State to-day.

D. L. Bliss of Carson, was a passenger for Salt Lake to-day.

Alvaro and A. A. Evans returned from Susanville last evening.

J. B. Mallon of Virginia City, came up from the Bay this morning.

Mrs. Judge W. M. Cary of Carson, is visiting Mrs. J. E. Jones of this city.

Paymaster Mills of the V. & T. was in town to-day setting up September demands.

Counselors D. Allen and J. F. Alexander went to Wadsworth to-day on professional business.

Miller, of the California cattle firm of Lux & Miller, was a passenger for the east this morning.

The mother of Senator Jones is reported to have completely lost her eyesight, with but little hope of restoration.

Mrs. Charles Davis (nee Miss Hattie Cross) is up from Oakland on a visit to her sister, Mrs. C. H. Stoddard.

Hon. Eugene Howell came up from California, en route to Pioche. Mr. Howell has been very sick all Summer with inflammatory rheumatism.

J. L. Crow of Clover Valley went below yesterday to accompany his wife home, who is reported to have been permanently cured of a cancer.

Rev. J. M. Warner, a Methodist itinerant who has served his connection with the Nevada Conference, left this morning for his old home in Pennsylvania.

Rev. E. N. Currier and wife, who have been stationed for the past year at Winnemucca, left to-day for Greenville, their new field of labor for the coming year.

Johnny Beam, son of the late Jacob Beam of Carson, went west to-day on his way to join the balance of the family, who are at Weston, Umatilla county, Oregon.

E. Chelovich went to Bullion, 20 miles south of Beowawa yesterday. He and his nephew own the Lady of the Lake mine, and are going to work ore in the mill and roasters. It is a good mine.

Mrs. W. R. Jenvey has safely arrived at Hoboken, and writes that she is quite pleased with her future home. Both Mrs. Jenvey and her little son, Arthur, enjoyed the trip across the continent.

The Rev. L. Ewing left this morning for Quincy, where he goes to bid farewell to his parishioners whom he has so faithfully served for several years, before commencing the Herculean task of the spiritual regeneration of Truckee.

Death of Col. Davies.

Colonel T. W. W. Davies died at Bridgeport, Mono county, California, Wednesday morning. He was for many years a leading member of the Ormsby county bar, and one time represented the county in the lower house of the Nevada Legislature. No particulars were received as to the cause of death. Deceased leaves a young wife and infant child, besides three grown-up sons by a former wife.

Colonel Davies, who was a son-in-law of the late Hal Clayton, arrived in Carson with his family soon after the close of the civil war, having served with distinction in both the Confederate army and navy. He was a native of one of the cotton States, and before the war was possessed of a comfortable fortune, which the emancipation proclamation rendered valueless.

For a man reared in the political faith of Calhoun, he was possessed of broad and liberal political ideas, and under the most adverse circumstances, never forgot that he was bred a gentleman.

Held to Answer.

Henry Buckley and Frank McTigue have been arrested and placed under \$1,000 bonds for an alleged attack on Superintendent Quimble, at the Belvedere mine on American Flat, a short time since. Ed, a brother of McTigue, is also wanted, but is not to be found.

A Splendid Opportunity.

Attention is called to the advertisement of Sweetser & Alsip, real estate dealers at Sacramento, under "New No-Day." The property described is one of the finest landed estates on the Pacific coast. Full particulars are to be obtained by writing to Sweetser & Alsip, Sacramento. Read ad.

A Good Indication.

From the amount of good things and valuable parcels daily carried to the southern part of this State by Wells-Fargo, the people of that country are evidently in a financial condition to be able to enjoy something more than the necessities of life.

Card of Thanks.

The ladies of the W.C.T.U. tender thanks to Professor Foster for his very interesting lecture last Friday evening, for the benefit of the Reading room. The receipts of the lecture were \$25.85.

Highest award (gold medal) at the Mechanics' Industrial Fair, held at San Francisco, 1882, for best and most scientific truss in existence.  
COMMITTEE REPORT.  
We find that the Pad of the I-X-L Elastic Truss is of hard wood, polished, is attached by a ball and socket, or universal joint, and has a spiral spring at the back of the ball to increase the elasticity, and is more suitable where a radical cure is aimed at. We believe the I-X-L Elastic Truss to be the most scientific and serviceable in the largest proportion of cases. JURY

Rev. Father Wilds' EXPERIENCE.

The Rev. F. P. Wilds, well-known city missionary in New York, and brother of the late eminent Judge Wilds, of the Massachusetts Supreme Court, writes as follows:

"78 E. 84th St., New York, May 16, 1893.  
 My dear Dr. J. C. Ayer & Co.:  
 Last winter I was troubled with a most uncomfortable itching humor affecting more especially my limbs, which itched so intolerably at night, and burned so intensely, that I could scarcely bear any clothing over them. I was also a sufferer from a severe catarrh and catarrhal cough; my appetite was poor, and my system a good deal run down. Having learned the value of AYER'S SARSAPARILLA, by observation of many other cases, and from personal use in former years, I began taking it for the above-named disorders. My appetite improved almost from the first dose. After a short time the fever and itching were allayed, and all signs of irritation of the skin disappeared. My catarrh and cough were also cured by the same means, and my general health greatly improved, until it is now excellent. I feel a hundred per cent stronger, and I attribute these results to the use of AYER'S SARSAPARILLA. I recommend with all confidence as the best blood medicine ever devised. I took it in small doses three times a day, and used, in all, less than two bottles. I place these facts at your service, hoping their publication may do good."  
 Yours respectfully,  
 F. P. WILDS."

The above instance is but one of the many constantly coming to our notice, which prove the perfect adaptability of AYER'S SARSAPARILLA to the cure of all diseases arising from impure or impoverished blood, and a weakened vitality.

Ayer's Sarsaparilla

cleanses, enriches, and strengthens the blood, stimulates the action of the stomach and bowels, and thereby enables the system to resist and overcome the attacks of all Scrofulous Diseases, Eruptions of the Skin, Eczema, Catarrh, General Debility, and all disorders resulting from poor or corrupted blood and a low state of the system.

PREPARED BY  
 Dr. J. C. Ayer & Co., Lowell, Mass.  
 Sold by all Druggists; price \$1, six bottles for \$5.

SOLE PROPRIETOR

OF THE UNITED STATES.

IT PRESERVES YOUR BUTTER COLD, sweet and fresh, as no other refrigerator can do. This is guaranteed. It is a fact long established by all connoisseurs of butter, that any vessel, cabinet or refrigerator, made of wood or any other substance carrying with it an odor, destroys the rich aroma contained in fresh butter; and furthermore all butter kept in the same vessel, cabinet or refrigerator with vegetables, any kind of meat, or any substance carrying a scent, becomes so tainted as to be unfit for table use, and even for culinary purposes. People may complain of poor butter, but the fault lies in the manner of keeping it.

New Life

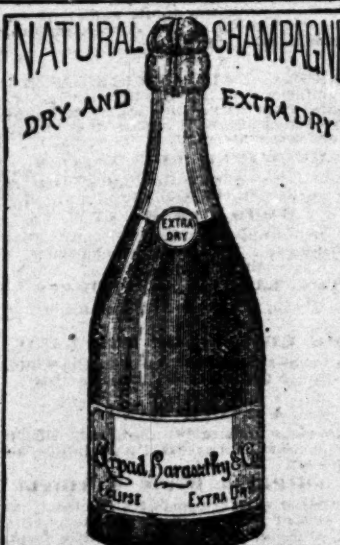

is given by using BROWN'S IRON BITTERS. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. BROWN'S IRON BITTERS ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1891:

Gentlemen: I take pleasure in stating that I have used BROWN'S IRON BITTERS for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for BROWN'S IRON BITTERS, and insist on having it. Don't be imposed on with something recommended as "just as good." The genuine is made only by the Brown Chemical Co. Baltimore, Md.
